

Supplier kit catalogue 2014

Range Available

Kalas offer a full range of team cycle & triathlon clothing and every product in the range is available to us in our design/colours.

The designs shown focus on the most popular items. If you are interested in something not on the list please ask for details.

The Chamois chosen for the bike shorts is the best and most expensive in the range. There are cheaper options if you want them, just ask.

Ladies Bib Shorts include Y shaped straps, for comfort and to ensure they stay on your shoulders.

Sizing

Size samples available.

SIZES

Kalas competition wear should be tight fitting to avoid air resistance and is designed and cut to fit a slim and athletic body. All materials are elastic and flexible and do not shrink when washed.

IMPORTANT when deciding your size:

Tops:

Do not exceed the maximum measurement on chest and waist figures in our size chart. If you believe you need a slightly larger size, go up to the next measurement indicated – even if the chart shows this is a longer body length.

Shorts and tights:

Choose one size smaller than our tops. All shorts and tights are made from very flexible material and are cut to be very tight fitting. The shoulder straps should be tight when standing upright.

Example:

For a male of 180 cm height, weighing 76 kilos, with a chest measurement of 103 cm and waist 84 cm, the correct choice would be XL in all top parts and L in shorts and tights.

NB!

- This size chart can be used for both Team Pro and Team Light
- If your anatomy does not fit the chart, contact us
- and we will be happy to help you
- For elite cyclists: Remember our Elite Cut!

Washing recommendations

All garments are machine washable at low temperatures. To avoid unnecessary degrading of materials a hand wash with mild soap is recommended if the garments are not particularly dirty. Garments should be washed every time after use as sweat and bacteria will attack and degrade the materials.

We want you to enjoy your cyclewear for a long time therefore please be careful when washing. Prior to machine washing, close all velcros and zippers, turn the garment inside out, and select a gentle wash program with maximum **30°C**. Do not use soap or powder containing bleach or softener. Bleach will degrade colours and softener will weaken the elasticity. Use a mild washing liquid. Note that washing powder can clog the fabric weave and therefore reduce functionality.

Never centrifuge or use a drier !!! Hang dry, but not in direct sunlight.
